

• eCoVan's attractive features !

	Extremely Light : 247kg for a 20m ³ Ultra Light eCoVan
	Also very strong ! The eCovan passed the XL test (Norm NF EN 12642)
	Ecologic : ECOFONT panels made out of recycled PET bottles !
	Economic : reduced fuel consumption thanks to the very low eCoVan weight
	Ideal for the new generation electric vehicles thanks to the very low eCoVan weight
	Quick and easy assembly, thanks to the integrated rear frame and the clever eCoVan concept

	A wide range of lashing rail options	
Strip aluminium	0,3kg/m	
Semi-recessed pin track alu	0,7kg/m	
Light pin track aluminium	1kg/m	
Universal rail galva	2,7kg/m	
Universal rail alu	1kg/m	
Capiton 2 in 1 galva	2,2kg/m	

• eCoVan's options
