Colours	RAL 9010 – RAL 9016 – MB white 9147 - other colours on demand eCoVan 4 : only RAL 9016				

<sup>\*</sup> for 20m³ body - including 1 row of aluminium universal lashing rails - translucent polyester roof - no floor & subframe weight 1 = with rear doors - weight 2 = width flap in the rear and side door

## eCoVan's attractive features!

	Extremely Light: 269kg for a 20m³ Ultra Light eCoVan		
4	Also very strong! The eCovan passed the XL test (Norm NF EN 12642)		
PET	Ecologic: ECOFONT panels made out of recycled PET bottles!		
	Economic: reduced fuel consumption thanks to the very low eCoVan weight		
	Ideal for the new generation electric vehicles thanks to the very low eCoVan weight		
ġ	Quick and easy assembly, thanks to the integrated rear frame and the clever eCoVan concept		

ш	A wide range of lashing rail options		
Alu airline rail	0,7kg/m	*********	
Semi-recessed pin track alu	0,7kg/m		
Light pin track aluminium	1kg/m		
Universal rail galva or alu	2,7kg/m 1kg/m		
Semi-recessed pin track alu with carpet	0,75kg/m		

## • eCoVan's options
